- GLOBAL MEDICAL RESEARCH CENTER INTRODUCTION
- **EFFICACY TEST**
- IN VITRO & EX VIVO TEST

GAREY LAB SKIN CLINICAL EXPERTISE NETWORK INTRODUCTION

Garey Lab has experts in fundamental dermatological research and clinical trials who will give advice on creating 'Multiple Solution' brand from introducing various types of products, introducing raw materials, extracts used as an ingredient in cosmetics and new innovation, including good and modern technology from testing results and research results when customers need.

"We are ready to handle the best network for your brand."

BENEFIT

The following benefits are given when conducting human application tests through the Garey Lab Skin Clinical Expert Network.

2. Garey Lab is able to
make recommendations
and assessments of this
tests in order to create the
best products for our
customers.

3. Customers can apply
skin testing technology to
extend of your product
sales.

4. Garey Lab specializes in cosmetic consulting services. As a company, discovering potential customers through clinical trials to support the promotion of our partner, the Global Medical Research Center.

GLOBAL MEDICAL RESEARCH CENTER INTRODUCTION

The Global Medical Research Center is a skin basic and clinical trial research center that evaluates the safety and effectiveness of general cosmetics, functional cosmetics, quasi-drugs, health functional foods, pharmaceuticals, cosmetics, new materials and medical devices.

We are conducting tests (based on GCP) in accordance with the KFDA standards through the best qualified specialists, research personnel specialized in the field of human application and in vitro tests, and the latest advanced equipment. In addition, through IRB operation, we aim to protect the rights of subjects and secure absolute reliability through compliance with standard guidelines for testing.

SKIN CLINICAL EFFEICACY EVALUATION **EFFICACY TEST**

Safety Evaulaion

- Primary irritation test for

human skin

- Accumulated human skin irritation and sensitization test
- Skin irritation test
- Skin usability test
- Skin sensitivity test
